

User Guide

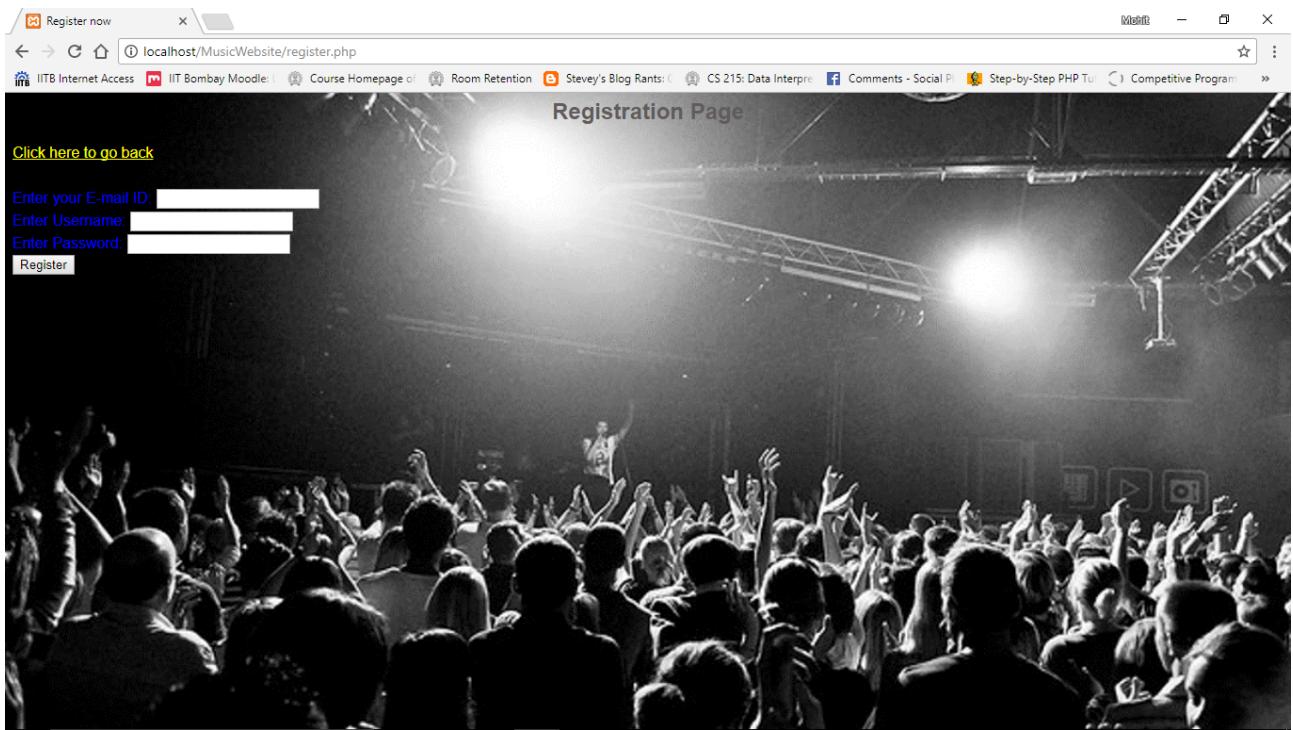

CS251 Project
Team Coders

This is simple lyrics library which supports all basic funtions, facebook comments, User upload feature and Regional language support.

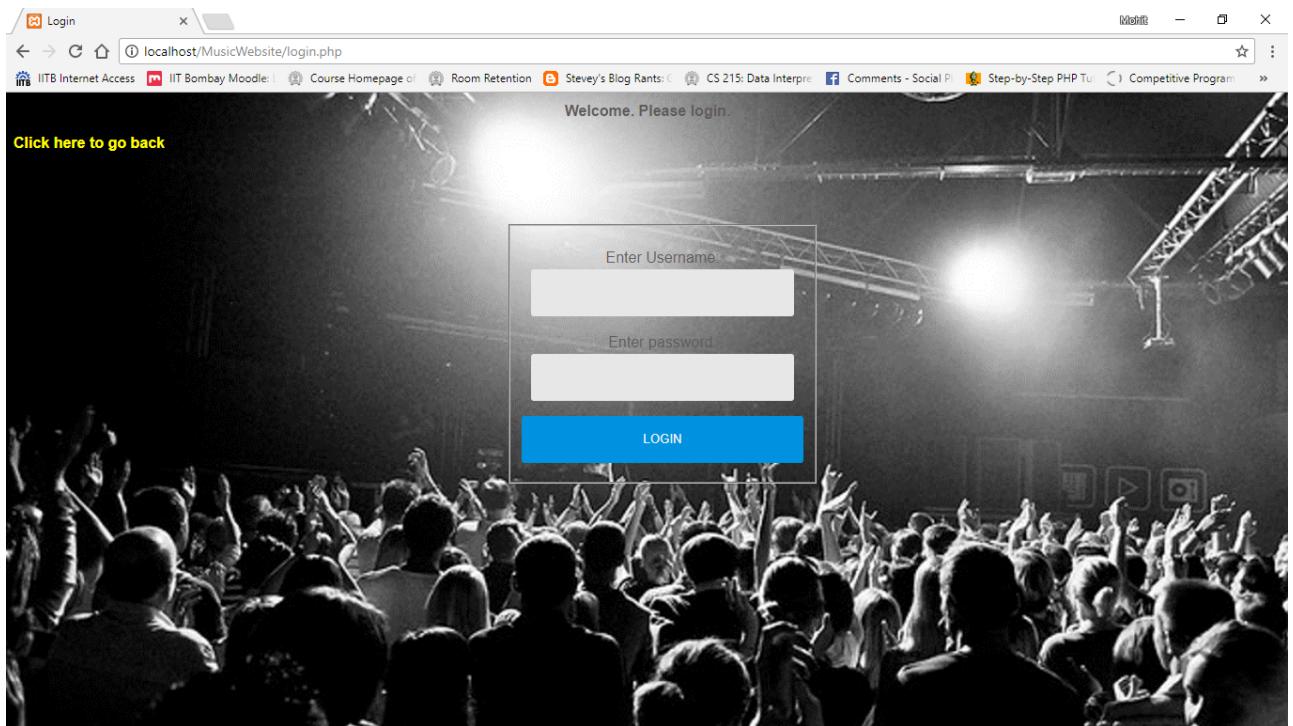

1. Index page, the first page which will open when we open the website. We can logon/register from this page to move forward.

2. Registration page, where user will enter his credentials and chhose a password.

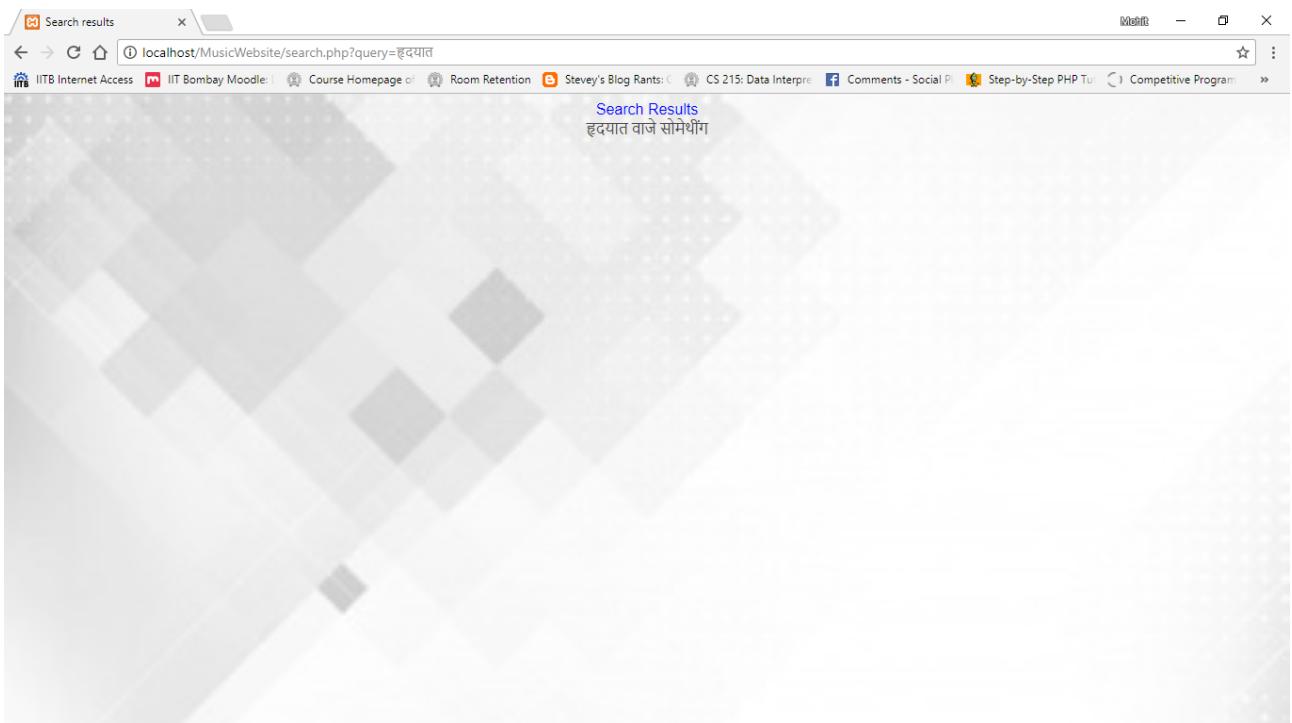

3. Login page when a existing user comes back, adding credentials it will take onto the next page of the website.

4. The page we get after logon/register is the homepage where we can get a number of options such as search, browse songs, upload, about or comment something using the facebook ID

5. When we seach for some word, we get some seach results related to the word entered. While searching, we can note that, we have used Google translate API to convert English fonts to Hindi. User can on/off it by using ctrl+g.

6. Clicking on some song name takes user to the song lyrics page, where lyrics of the song with a video from Youtube is embedded.

हो...
असतो उगाच समिलिंग
बघतो तुला मन जायेग
वाटे हवे गोड फीलिंग
तारणारा
असतो उगाच समिलिंग
बघतो तुला मन जायेग
वाटे हवे गोड फीलेग

धुंद धुंद क्षण सरे
हलके हलके फुलणरे
फिरूनी ओठावर घेई
तुझेव गाणे (2 Times)

खिडकीतुन डोकावुनि
दिसतेस कां पाहतो तुला क्षणोक्षणी
काळात तुला मी संपत्ती
रोख कशी तगमग हि मनाची

नजरेनवन याद्या यांगानो मी जला यांगे

About Us

We are team Coders.

We are a team of four IITB Undergrads. This is a website made by us as CS251 final project.
This a "lyrics library" which can be used as a hub for lyrics of Indian as well as non Indian languages.
Anyone can upload a lyrics here which will be reviewed by the admin and posted to the website.
This website uses phpmyadmin, mysql, Apache server, PHP, html, css, bootstrap, Ajax and Javascript.
We use Google language translate API provided by Center For Indian Language Technology, IIT Bombay to convert English to Indian languages real time
The fully documented source code for the website will be available Github soon. Feedbacks are welcome!

The Team

Thank you!
